**** Notice of Joint Technical Visit****

Title: Technical Visit to Zhuhai Yunzhou Intelligence Technology Ltd. and Heung Shan TechPort

Background of Zhuhai Yunzhou Intelligence Technology Ltd.:

Zhuhai Yunzhou Intelligence Technology Ltd. was founded in Zhuhai South Software Park in 2010. This company researches and manufactures unmanned boats. The company focuses on the applications of unmanned surface vehicle (USV) on environmental protection which will bring a revolutionary solution for the water monitoring industry. Their products include different models of robotic water samplers and inspectors of various sizes. They can be used for routine standardized water sampling, emergency water sampling, spatial distribution of water quality factors acquisition, lake floor topographic surveying, pollution source tracking, as well as prediction of algae bloom.

Programme highlights

The Joint technical visit enables members of HKIMT and HKJB to observe the production and testing processes of different types of intelligent unmanned surface vessels, visit the port operation of the Heung Shan TechPort and to see the advanced technologies on the application of artificial intelligence in different fields of the maritime industry including unmanned vessel navigation, environmental measurement, military equipment, unmanned freight, etc. This technical activity provides a valuable opportunity for members to appreciate unmanned vessels and the practical application of the artificial intelligence technology through site visit in order to observe the advanced technologies and understand the role of innovation and technology in the development of the Guangdong-Hong Kong-Macao Greater Bay Area.
